Jasmine Square Park drop in event

It was great to see so many people come together in the sunshine on Thursday 23rd April to enjoy an ice cream, take a first look at the exciting plans for Jasmine Square Park and for some, get one last go on the current equipment!

The designs retain some well-loved features that you requested to keep, including the uniquely named “Friend Machine,” which will be replaced with a new version of the original.

Construction of Jasmine Park will be carried out by Hill, with works due to start towards the end of May 2026.

Clare House demolition update

As you will know from the letter sent to you by Erith, a large crane will be coming to site on Thursday 7th May, first thing in the morning. This will be used to lift all the equipment to the top of Clare House that is needed for the demolition, which will start as soon as the equipment is safely in place. More information on how the demolition will be carried out and copies of the letters that have been sent out by Erith in relation to this, can be found on our dedicated website:

www.clarehouselive.com

We will be posting drone footage of the demolition as it progresses, which you will also be able to view on the website.
